Dear Honorary Mayor Kuhl and Honorary Council Members,

We live at 14 Walnut Avenue and although we have not been able to be in attendance for the ADR meetings we have been following the review of the submittal for the property at 28 Walnut Ave.

It is not clear to us why the applicant has not taken into account the recommendations of the majority of the ADR members who asked that the design be re-worked. It is our understanding that although the ADR committee did not vote to approve the project, it has been moved on to the Town Council seeking approval there.

We would hope that the process of refinement in terms of massing and screening be looked at and negotiated with the ADR members prior to moving on to the Town Council.

Respectfully,
Loretta Gargan
and
Catherine Wagner
