

## **Energy Shortage / Power Outage**

Unplanned power outages can be caused by many things: traffic accidents, damage to power lines, even metallic balloons caught in overhead wires.

### **In the event of an unplanned power outage**

- At the workplace: if there is sufficient light to remain in your work area, do so and await direction.
- Be prepared to provide location, address, phone number and description of what happened.
- If appropriate, contact Pacific Gas & Electric 800-743-5002
- Do NOT light any candles or open flame devices.
