

For Member of the City Council

ELIZABETH ROBBINS

Occupation: Incumbent/Physician

I am a Pediatric Oncologist and Professor at UCSF, and have lived in Ross with my family (Stephen Hauser and our three sons) since 1992.

I'm running for reelection to help maintain the many features of our town that make it such a desirable place to live. Ross is a special town, with beautiful residential areas, a charming downtown, and an excellent public school. We enjoy informal gatherings with neighbors on a daily basis at the post office.

I have served as a Council Member since 2014 and am currently serving as Mayor. Important issues include rebuilding the Town's police and paramedic facilities; preparing for disasters, including fires and floods; continuing to ensure the town's fiscal stability; instituting flood control measures; and finding ways to meet the Town's requirement for increased housing. I have substantial experience working on community issues: I was a trustee on the Ross School Board for 16 years, and was chosen as Marin County's School Trustee of the Year in 2012. I value decision-making that is respectful, open to all opinions, and transparent.

It would be an honor and a privilege to continue to serve as a member of the Town Council.
